🔗 Portfolio

### Education

**Bachelor of Technology - Computer Science and Engineering,**  
Pragati Engineering College

2018 Jun – 2022 Jun

### Professional Experience

**Software Engineer, Wipro**

2022 Jul – present  
Hyderabad, India

- Designed and implemented features to manage asset details and track their locations within substations.
- Proficiently managed GraphQL API using GraphQL for efficient testing and development.
- Utilized responsive design techniques with **Tailwind CSS** to ensure the application was mobile-friendly and accessible across different devices.
- Conducted testing and debugging to identify and resolve issues, ensuring a smooth and reliable user experience.
- Expanded technical expertise in **React JS, Vue.js, GraphQL, JavaScript, Java.**

### Projects

#### Ecommerce

- Developed an ecommerce application using **ReactJS, Redux Toolkit, React Router and Tailwind CSS**.
- **RTK** was integrated for efficient state management, ensuring scalable data flow.
- **Tailwind CSS** enabled rapid styling and responsiveness, enhancing the overall user experience.
- Build up complete backend api using **SpringBoot**.

#### Expenses Tracker

- Built an expense tracker application using **React** to manage user expenses, featuring **light and dark mode** for user customization.
- Configured **Supabase** as the backend database to securely store and retrieve expense data, enhancing application scalability and data integrity.
- Created interactive **data visualizations** for expenses, including bar and pie charts and **data table** interface with sorting and filtering options, to help users analyze spending patterns at a glance.

### Skills

**Programming Languages** — JavaScript, Java, Python

**Frameworks/ Libraries** — React JS, Vue JS, SpringBoot

### Languages

- English
- Hindi
