## EDUCATION

---

### Bachelor of Technology - Computer Science and Engineering

06/2018 – 06/2022

Pragati Engineering College

## PROFESSIONAL EXPERIENCE

---

### Software Engineer

07/2022 – present

Wipro

- Contributed significantly to the development of a scalable Vue.js application for a finance and electricity data project.
- Implemented robust features crucial to client requirements, ensuring a seamless and user-friendly experience.
- Proficiently managed GraphQL API using GraphQL for efficient testing and development.
- Collaborated seamlessly with cross-functional teams to ensure effective communication and project synergy.
- Prioritized bug-free development, adhering to coding standards for enhanced project stability.
- Designed and implemented reusable components, reducing redundancy and optimizing the development process.
- Contributed to the project's success through the application of enhanced technical skills.
- Expanded technical expertise in **Vue.js, GraphQL, JavaScript, CSS, and HTML**

## SKILLS

---

- Vue.js
- GraphQL
- JavaScript
- React
- C++

## PROJECTS

---

### Online Editor

Codepen Clone

- Developed a **React** based CodePen replica, enabling real-time execution of **HTML, CSS, and JavaScript** for instant feedback.
- Implemented **React Router DOM** to ensure seamless navigation within the application.
- Integrated **React Codemirror** to elevate the code editing experience, fostering efficient development.
- Ensured a **responsive design** for consistent functionality across various devices.
- Effectively managed project tasks throughout the development process.
- Emphasized clean and efficient code practices, prioritizing **maintainability and scalability**.

**Tech Stack** : React, React Router DOM, React Codemirror

### Chat Application

- Developed a application with features such as user authentication, real-time chat, and room creation/joining using React, React Router DOM, and Redux.
- Implemented a dynamic user interface allowing users to login, create or join chat rooms, and engage in real-time conversations.
- Utilized Firebase for storing user data, enabling authentication, and providing real-time database storage.
- Integrated functionality to display online users, fostering a collaborative and interactive chat experience.
- Demonstrated proficiency in using cutting-edge technologies to create a responsive and user-friendly application

**Tech Stack** : React, React Router DOM, Redux, Firebase

## CORE COMPETENCIES

Version Control (Github) | Problem Solving | Adaptability | Collaboration and Communication

## ACHIEVEMENTS

### Finalist of Juspay Coding Hackathon

*Juspay*  
Participated in the Juspay Coding Hackathon, showcasing strong problem-solving skills and coding proficiency. Successfully advanced to the finals by clearing all quiz and coding rounds, demonstrating adaptability and a competitive edge.

### Google Code Jam

*Google*  
Cleared the first round of the google code jam, a global programming competition with over 1,00,000 participants

### Winner of Internal Web Development Competition

Cleared all the rounds and developed a web application where developed an application for the one of the clubs in the college where they can have data of the club members and participants using React and React Query/
